☆ Tuesday, 14:30-16:00
Room: *SOUTH BUILDING UV S307*
Stream: Combinatorial Optimization II

TD-25: **EURO Young O.R. Researchers**

Chairs:

- Martina Fischetti
- Alberto Santini

1. *Branch-and-cut-and-price strategy for the port-scheduling problem*
   David Sacramento Lechado
2. *A tabu-search algorithm for the routing open shop problem with time windows and precedence constraints*
   Erik Hellsten
3. *The energy collection problem in offshore wind parks*
   Martina Fischetti
4. *A hybrid machine learning and ALNS approach to the orienteering problem*
   Alberto Santini
